PROFESSIONAL SUMMARY

Backend-focused Full-Stack Developer with 1+ year of experience across contract and full-time roles, building TypeScript web products, from NestJS and PostgreSQL APIs to React and Next.js frontends. Currently a Backend Developer at Unplanned Labs, also delivering client products through MrigTech.

EXPERIENCE

Unplanned Labs — Cafora (café discovery platform)

Assam, India (Remote)

Backend Developer (Full-time)

Aug 2026 – Present

- Built the NestJS and PostgreSQL backend for Cafora's mobile app: 77 REST endpoints across 18 controllers, a Prisma schema of 21 models and 22 migrations, delivered in the first six weeks of development.
- Implemented JWT access and refresh-token auth, Google sign-in, role-based access (user, café owner, admin), and password reset that revokes all sessions; added rate limiting and Helmet hardening.
- Shipped the core product features: mood-based café discovery and search, similar cafés, reviews with photo uploads, vibe check-ins, stories and video, a featured carousel and live occupancy status.
- Containerised the service with Docker Compose, wrote a one-command VPS deploy (build, migrate, restart), 94 automated tests and a full API reference used by the frontend team.

MrigTech — software development firm

Jodhpur, India

Full-Stack Developer (Contract, part-time)

Sep 2025 – Present

- Heer Fragrance (heerfragrance.com):** Production e-commerce platform in React and Supabase: 100+ SKUs, auth, cart, orders and Razorpay checkout, with a mobile-first storefront.
- UniForm Billing:** Multi-client POS billing SaaS for uniform dealers (React, TypeScript, Express, MySQL): GST invoicing, barcode and thermal-printer inventory with low-stock alerts; live with one client, second onboarding.
- Viraat Builders:** Construction management platform (Next.js, TypeScript, Express, MongoDB): sites, tasks, orders, QR-code attendance and role-based dashboards.
- Mevenviro (mevenviro.com):** Company website plus telemetry-processing backend and analytics dashboards for industrial monitoring (React, Node.js).

PERSONAL PROJECTS

Engraved — E-commerce platform | React • Node.js • Express • MongoDB

2024

- Product catalogue with category filtering, cart and REST APIs, plus an admin dashboard for inventory and pricing.

Movie Streaming Backend | Node.js • WebTorrent

2024

- Peer-to-peer streaming backend with chunk-based delivery and stream buffering for a mobile app (github.com/Mevayaan1/movie-server).
